Educational Background

Ph.D. in Computer Science and Engineering Tennessee Technological University, Expected July 2024	2021-to date Tennessee, USA
Master of Science in Electrical and Computer Engineering INHA University	2020 Incheon, South Korea
Bachelor of Science in Electrical Engineering University of Engineering and Technology	2015 Peshawar, Pakistan

Research Interests

- Intersection of Cybersecurity, machine learning, and Data Science
- Deep Machine learning for data analysis and security enhancement
- Cellular Vehicle-to-Everything (C-V2X) Technology

Professional Experience

Graduate Research Assistant <i>Cybersecurity Education, Research and Outreach Centre (CEROC)</i>	2021-to date Tennessee, USA
<ul style="list-style-type: none">▪ Penetration testing on an actual drone system by executing False data injection, Replay, Evil Twin, and DoS attacks to identify the critical attack vectors.▪ Designed and built a robust intrusion detection system using Graph Neural Network, CNN, LSTM, FNN, SVM, Random Forest, and sequential and ensemble algorithms such as bagging, boosting, and stacking.▪ Collected data from the actual drone swarm system under cyberattacks and normal operations. Preprocessed the raw data, performed fusion of different data sources, and open sourced this dataset on IEEE DataPort.▪ Identification of applications security vulnerabilities such as cross-site scripting, SQL injection, and DDoS attacks.	
Research Scientist <i>Oceanic IT Convergence Research Centre</i>	2020-2021 Asan, South Korea
<ul style="list-style-type: none">▪ Data analysis of underwater acoustic communication using machine learning for link adaptation and throughput.▪ Collected underwater acoustic data in the Incheon Sea over 1km and 3km distances between Tx and Rx.▪ Designed algorithms for autonomous underwater vehicle's (AUV) and embedded them to the AUV.	
Graduate Research Assistant <i>Mobile Telecommunication Research Laboratory</i>	2018-2020 Incheon, South Korea
<ul style="list-style-type: none">▪ Developed cellular vehicle-to-everything (C-V2X) simulator according to 3GPP Rel. 14 & 15.▪ V2X Side-link & PC5 Interface (V2V, V2I), 5G-NR, and DSRC communication in vehicular environments▪ Simultaneous Localization and Mapping (SLAM) technology for UAVs	
Lab Engineer <i>Qurtuba University of Sciences and Technology</i>	2016-2018 Pakistan
<ul style="list-style-type: none">▪ EE-391: Communication Systems▪ EE-493: Computer Networks▪ EE-271: Object Oriented Programming & Data Structure in C++	
Junior Operation Engineer <i>Master Tiles & Ceramic Industries Limited</i>	2015-2016 Pakistan
<ul style="list-style-type: none">▪ Ladder Logic programming for PLC designing for Ceramic Plant operation.▪ Worked closely in operation for overall control system.	
BSS Intern Engineer Alcatel-Lucent Ltd.	June 2014 - September 2014 Pakistan
<ul style="list-style-type: none">▪ Worked at BSS-CMPak project in Operation and Maintenance department.▪ Implements modifications for the BTS sites.	

Certifications

- Penetration Testing, Incident Response and Forensics, IBM Cybersecurity Analyst Professional Certificate (Coursera)
- Security Risks in AI and Machine Learning: Categorizing Attacks and Failure Modes (LinkedIn)
- Cisco Networking Foundations: Wireless Networks, Services, Security, and Virtualization (LinkedIn)
- Software Development for Unmanned System, Drone Programming (Udemy)
- Generative AI with Large Language Models (Coursera)
- GPT-4 Foundations: Building AI-powered Apps (LinkedIn)
- LangChain for LLM Application Development (Deeplearning.ai)

Teaching Experience

Teaching Assistant (at Tennessee Technological University, USA)

- CSC-2310: Object Oriented Programming/Design in Python (Spring 2023)
- CSC-3410: Computer Org/Assembly Language Programming (Spring 2023)
- CSC-3410: Computer Org/Assembly Language Programming (Fall 2022)
- CSC-2310: Object Oriented Programming/Design in Java (Summer 2022)

Teaching Assistant (at Inha University, Korea)

- ECE: Advanced Wireless Communications (Spring 2020)
- ECE: Circuit Analysis-II (Fall 2019)
- ECE: Circuit Analysis-I (Spring 2019)

Instructor (at Qurtuba University, Pakistan)

- EE-391: Communication Systems (2016-2018)
- EE-493: Computer Networks
- EE-271: Object Oriented Programming & Data Structure in C++

Advising and Mentoring

- **John Richeson (MSc Student, Current):** Developing Intrusion Detection System against the Evasion Attacks on a UAV, Department of Computer Science, Tennessee Technological University, TN, USA.
- **Mike Soare (MSc Student, Current):** Reinforcement Learning to Attack Leader Drone in a Swarm, Department of Computer Science, Tennessee Technological University, TN, USA.
- **Nafis Ahmed (MSc Student, 2020):** Path Planning of the Unmanned Aerial Vehicles, Department of Electrical and Computer Engineering, Inha University, Incheon, Korea.

Product and Simulator

- **Developed C-V2X Simulator and delivers to Korea's MSIT (Ministry of Science, Information, and Technology)** Performance Analysis System Level Simulator in LTE-V2X Network Environment", *INHA University Industry-Academia Cooperation Foundation*, Program No. C-2019-024785, 2019-09-05. [\(simulator code\)](#)

- **Developed Link Adaptation Simulator and handed over to the Oceanic IT Convergence Research Centre, Korea**
System Level Simulator for Link-Adaptation for Next-Generation Underwater Acoustic Communications Networks. ([simulator code](#))
- **Developed Dataset executing cyber-attacks on an actual drone system and published it open sourced.**
Cyber-Physical Dataset for UAVs Under Normal Operations and Cyber-attacks [[Download on IEEE DataPort](#)] ([github](#))

Skills

- **Tools/software:** MATLAB, Keras, TensorFlow, Scikit-learn, Pandas, Scapy, Docker, Git, Aircrack-ng, Nmap, Wireshark, Metasploit, kali linux, Jupyter notebook, VS Code, VS studio, Ardupilot, Arduino, and Q-Groundcontrol.
- **Programming Languages:** Proficient in Python, Assembly, Shell Scripting, Java, and C/C++.
- **Cybersecurity Practices:** Threat Modeling, Intrusion Analysis, Penetration Testing, Forensics, Identity and Access Management (IAM), Cloud Security, and Malware Analysis.

Honors and Awards

- Awarded with travel fund from Centre for Energy Systems Research (CESR), Tennessee Tech University, 2023
- Awarded with travel fund from College of Engineering, Tennessee Tech University, 2023
- Recipient of the Jungseok International Scholarship to pursue M.S. Studies at Inha University, Korea.
- Awarded with Fully funded Undergraduate Studies from Provincial Govt., under the KPK Govt. Talent Hunt Programs.
- Awarded with Laptop for best performance from the Provincial Chief Minister KPK, Ameer Haider Khan Hoti.
- Member Pakistan Engineering Council, Accreditation No. ELECT/52138.

Services and Activities

Reviewer

- Reviewer, Vehicular Communication, Elsevier Journal
- Reviewer, IEEE Networking Letters
- Reviewer, IEEE Internet of Things (IoT) Journal & Magazine (IoTM)

Other Services

- Leading Graduate and Undergraduate students' teams for 2024 Cybersecurity Competition which is to be in summer 2024.
- Vice President of the Computer Science Graduate Student Club, Tennessee Tech University. 2022 – Present
- Member of the Autonomous Vehicle Club, Tennessee Tech University. 2022 – Present
- Ambassador for the International Graduate Students, Inha University. South Korea, 2020
- Committee member of the International Student Lounge, Inha University. South Korea, 2020

Talks and Meetings

- Stealthy False Data Injection Attack on Unmanned Aerial Vehicles
Computer Science Graduate Student Seminar, Tennessee Technological University November 2023
TN, USA
- Machine Learning-Based Intrusion Detection for Swarm of Unmanned Aerial Vehicles
IEEE Communications and Network Security Conference October 2023
FL, USA
- Stealthy False Data Injection Attack on Unmanned Aerial Vehicles with Partial Knowledge
IEEE Communications and Network Security Conference October 2023
FL, USA
- Invited Talk: Adversarial attacks on a drone Swarm with practical Demo
CEROC Advisory Board Committee, Tennessee Technological University October 2023
TN, USA
- Vulnerabilities and Drone Hijacking Demo
Cyber Discovery Day, Tennessee Technological University September 2022
TN, USA
- Technologies and use cases for Cellular Vehicle-to-Everything (C-V2X)
Korea Telecom (KT) Corporation Research Centre April 2020
Seoul, Korea
- 5G-V2X for Intelligent Transportation Systems
Workshop, Seoul National University February 2020
Seoul, Korea
- 5G-V2X for Intelligent Transportation Systems
Information Technology Research Center (ITRC), Ministry of Information Science and Technology November 2019
Incheon, Korea
- Cellular V2X communications in unlicensed spectrum: Compatible coexistence with VANET in 5G systems
29th Joint Communication and Information Conference May 2019
Gangneung, Korea
- Virtual cells operation for 5G-V2X communications
Korea Communications Society Winter Conference February 2019
Yongpyeong, Korea
